

5-24 FEB 2017

GHI-THAILAND

Global Health Institute - THAILAND 2017

Knowledge and Skills for Addressing Emerging Infectious Disease at Convergence of Animal, Human and Environmental Health

The Global Health Institute (GHI) - Thailand began in 2012 as a collaboration between the Veterinary Public Health Centre for Asia Pacific at Chiang Mai University and various partners around the world.

The program is designed to strengthen relevant technical skills and identify opportunities for catalyzing collective action for the benefit of public health, food security and ecosystem health.

Through interprofessional education, the GHI has benefited participants across Asia by expanding collective leadership action to protect present and future generations and our world.

Global Health Institute – Thailand 2017 represents an international collaboration between two World Organisation for Animal Health (OIE) Collaborating Centres for Veterinary Services Capacity Building: the Center for Animal Health and Food Safety (CAHFS), University of Minnesota, and the Veterinary Public Health Centre for Asia Pacific (VPHCAP), Chiang Mai University, also an Excellence Centre for Veterinary Public Health at Chiang Mai University. The GHI provides an opportunity for participants from university, government and industry sectors to meet together with faculties from the University of Minnesota and academic institutions in Thailand to examine the impact of globalization on health and identify strategies that support a healthy and productive global workforce.

The 5th GHI offers intensive study combined with a 2 day research conference in support of the goal of OneHealth Leadership in emerging diseases at the convergence of animal, human and environmental health. The GHI program offers 6 course options for participants in order to fulfill and complement the OneHealth Leadership experiences. The GHI 2017 - Thailand offers a great opportunity for all participants to share knowledge and strengthen professional networks.

OBJECTIVES

ABOUT THE GLOBAL HEALTH INSTITUTE – THAILAND 2017

The 3-week program will be conducted from 5 – 24 February 2017 in Chiang Mai, Thailand. The 1st week (5-9 Feb) offers participants the option to select one of two intensive courses: Global Health Leadership at the convergence at animal, human and environment for Outbreak Response using One Health Systems Mapping and Analysis (OH-SMART) tool or an introduction to Participatory Epidemiology Approach to One Health – EcoHealth.

The research conference will be organized on 10-11 February focusing on new research findings and exchange experiences between experts, governments, private sector, academic scientists, graduate and doctoral-level students covered the following themes;

- Emerging and Re-emerging diseases
- Antimicrobial resistance
- Application of risk analysis
- Epidemiological tools and application
- Food safety and hygiene

The participant will be able to select additional intensive courses in the following two weeks (13-17 and 20-24 February) focusing on Participatory Epidemiology Approach to One Health – EcoHealth 2 (Community Base), Social Network Analysis, Farm to Table and Food Safety Risk Analysis all within the framework of One Health.

TARGET PARTICIPANTS

- * Graduate and doctoral-level students
- * Professional and young scientists
- * Governments, universities and private sectors

Week 1: 5-9 Feb 2017	Conference: 10-11 Feb 2017	Week 2: 13-17 Feb 2017	Week 3: 20-24 Feb 2017
<ul style="list-style-type: none">• Course 1: Global Health Leadership: the convergence at animal, human and environment, for Outbreak responding using One Health Systems Mapping and Analysis (OH-SMART) 5 days (5-9 Feb)• Course 2: Participatory Epidemiology Approach to One Health – EcoHealth (Introduction) 4 days (6-9 Feb)	<ul style="list-style-type: none">• “3rd Global Health Conference of Researchers in emerging disease at convergence of animal, human and environment health”• Emerging and Re-emerging diseases• Antimicrobial resistance• Application of risk analysis• Epidemiological tools and application• Food safety and hygiene 2 days (10-11 Feb)	<ul style="list-style-type: none">• Course 3: Participatory Epidemiology Approach to One Health – EcoHealth 2 (Community Base)• Course 4: Social Network Analysis• Course 5: Farm to Table 5 days (13-17 Feb)	<ul style="list-style-type: none">• Course 6: Food safety Risk Analysis 5 days (20-24 Feb)

REGISTRATION FEES

Package	Detail	Regular	Student
Package A	Conference + 3 course	\$990	\$900
Package B	Conference + 2 course	\$750	\$700
Package C	Conference + 1 course	\$500	\$480

Detail	Early bird	Regular	Students
Course 1: Global Health Leadership: the convergence at animal, human and environment for Outbreak responding using One Health Systems Mapping and Analysis (OH-SMART)		\$450	\$400
Course 2: Participatory Epidemiology Approach to One Health – EcoHealth (Introduction)		\$295	\$255
Conference on “3 rd Global Health Conference of Researchers in emerging disease at convergence of animal, human and environment health”	\$250	\$350	\$250
Course 3: Participatory Epidemiology Approach to One Health – EcoHealth 2 (Community Base)		\$295	\$255
Course 4: Social Network Analysis		\$295	\$255
Course 5: Farm to Table		\$295	\$255
Course 6: Food safety Risk Analysis		\$295	\$255

Remarks

- This price covers; lunch + refreshment, materials and course logistics.
- Cancellation by participant is non-refundable.
- We reserve the right to cancel the course with less than 10 registers.
- The program is subject to change or adjust.
- Free 10 registration fee for 10 selected abstracts.

Important Date

Date	Detail
Monday 19 December 2016	Abstract submission deadline at vphcap@gmail.com
Friday 23 December 2016	Notification of Acceptance
Friday 30 December 2015	Deadline of Early bird Registration
